EDUCATION

Tsinghua University

Master of Architecture

Beijing, China

Sep. 2026 – Jul. 2028(Expected)

- *Research Focus:* Architecture, Artificial Intelligence, Urban Behavior Computation

Chongqing University

Bachelor of Architecture

Chongqing, China

Sep. 2020 – Jun. 2026

- **GPA: 3.88/4.00**
- *Note on Academic Transition:* Successfully transferred from Environmental Science & Engineering to Architecture in 2021 via highly competitive internal selection.
- *Core Coursework:* Digital Technology in Architecture (96), Building Physics (Acoustics 96, Optics 95, Thermal 92), Building Construction (96).

PUBLICATIONS

- Li, X. *, **Zhao, Z.**, & Zeng, X. (2025). Applying BIM and pedestrian simulation for architectural flow line optimization in subway stations: an empirical analysis at Chongqing Ranjiaba Station. *Journal of Asian Architecture and Building Engineering*, 1–22. doi:[10.1080/13467581.2025.2455035](https://doi.org/10.1080/13467581.2025.2455035) (SCI, A&HCI Indexed)
 - *Role:* Sole undergraduate co-author & Primary researcher for simulation and data analysis
 - *Contribution:* Formulated the pedestrian simulation framework using MassMotion; designed 4 rigorous control groups to model passenger fluctuation dynamics near statistical means; conceptualized a spatial optimization model treating "stairs + escalators" as integrated units based on the station's central-symmetric layout; drafted the experimental and data simulation sections in English.
- **Zhao, Z. ***, & Chang, J. (2024). Exploration of Optimized Design of Rail Transit Interchange Streamlines Based on Pedestrian Simulation and Psychological Perception. *China Architecture Education*. (Forthcoming)
 - *Award:* **First Prize** in the 2024 “Qingrun Award” National College Student Essay Competition
 - *Key Work:* Developed a dual qualitative-quantitative framework; integrated VR visualization with cost-efficiency data metrics.

RESEARCH EXPERIENCE

- **Team Leader | National Undergraduate Innovation Training Program** Jun. 2023 – Jun. 2024
 - *Project:* Pedestrian Simulation-Based Analysis and Architectural Circulation Optimization Utilizing Digital Technologies: A Case Study of Ranjiaba Subway Station. (Advisor: Prof. Xudong Zeng)
- **Research Assistant | Digital Technology Lab, CQU** Feb. 2023 – Jul. 2023
 - *Publication:* Li, X., Lu, F., Zeng, X. *, & **Zhao, Z.** (2023). Teaching Practice of BIM and Pedestrian Simulation Technology in Architectural Streamline Design: Taking the Optimized Design of a Subway Station as an Example. *Proceedings of the 2023 National Symposium on Architectural Digital Technology Teaching and Research in Architecture Schools*, pp. 59-65. doi:[10.26914/c.cnkihy.2023.091665](https://doi.org/10.26914/c.cnkihy.2023.091665)
- **Core Researcher | The 14th Undergraduate Research Training Program (SRTP)** Feb. 2022 – Mar. 2023
 - *Project:* Safety-Oriented Study on the Current Status of Age-Friendly Modification in Old Residential Public

Circulation Spaces in Chongqing.

(Advisor: Prof. Ji Weng)

- *Contribution:* Mastered SPSS and statistical methodologies; constructed factor analysis models and Semantic Differential (SD) Scales to evaluate the quantitative correlations between spatial-environmental independent variables and holistic senior safety perceptions.

INTERNSHIP & WORKSHOPS

- **Intern | The Architectural Design Institute of Zhejiang University (UAD)** *Oct. 2025 – Jan. 2026*
 - *Role:* Contributed to the construction drawing revisions for the Zhejiang Provincial Helicopter Emergency Medical Service Trauma Center project, and the schematic and conceptual design for the Shipu Fishing Culture Inheritance and Protection Research Center project.
- **Member | 2025 Computational Design Symposium Workshop (CDAC)** *Nov. 2025*
 - *Project:* Humanizing Mixed Reality—Social Computation Based on Microscopic Posture. (Hosted by Tongji University)
- **Member | 2025 DigitalFUTURES Workshop** *Jul. 2025*
 - *Project:* Perception of Positive Affect in Street Spaces: Powered by VR and Physiological Measurement. (Hosted by Tsinghua University)

HONORS & AWARDS

- **Selected Honors**
 - National Scholarship, Ministry of Education (Top 0.2%) *2024*
 - Excellent Engineer Education and Training Program, Ministry of Education *2020 – 2026*
 - First-Class Merit Scholarship, Chongqing University (Awarded 3 times, Top 2%) *2022 – 2026*
 - Outstanding Student Award, Chongqing University (Awarded 4 times, Top 5%) *2022 – 2025*
- **Selected Competition Awards**
 - First Prize, 2024 “Qingrun Award” National College Student Essay Competition *2024*
Sole Undergraduate Winner, 1/78
 - National First Prize, The 17th National 3D Digital Innovation Design Competition (Grand Finals) *2024*

LEADERSHIP & STUDENT WORK

- Grade Assistant to the Counselor | School of Architecture and Urban Planning, CQU *Feb. 2024 – Jun. 2026*
- Core Project Member | AI Counselor “Runxin” Project, CQU *Feb. 2024 – Jun. 2026*
- Vice Director | Student Volunteer Service Center, CQU Youth League Committee *Oct. 2021 – Feb. 2022*
Cumulative Volunteer Hours: 288h

SKILLS

- Parametric Design & BIM: Rhino (Grasshopper), Autodesk Revit, AutoCAD.
- Urban Simulation & Big Data: MassMotion, Virtual Reality (VR/MR Workflow).
- Data Analysis & Statistics: SPSS, Python.
- Visual Communication: Adobe Creative Suite (Photoshop, Illustrator, InDesign), 720Yun Platform.
